Un strumento per guardare lontano

In questo catalogo l'indice è stampato a parte e posizionato in una tasca in seconda di copertina (A). A gennaio 2022 un nuovo indice (B), completo di immagini delle ulteriori novità e rientri, prenderà il posto del precedente, un'integrazione essenziale, che permette di risparmiare carta in un mondo dove ogni albero è prezioso.

A forward-looking tool

In this catalogue the index is printed separately in a pocket in the inside front cover (A). In January 2022 a new index (B) with images of the years new items and reissues will replace the previous one, an essential integration that will update the catalogue, thereby saving paper in a world where every tree is precious.
